Befort Wetzlar OD GmbH

Optical Design

- **Established: 2007**
- **Employees: 3**
- **Service portfolio**

Befort Wetzlar Optical Design specialises in opto-mechanical constructions and the optical designing of systems and components. The company is also engaged in mechatronic integration of the components.

- **Products and services**
 - Optical calculations
 - Mechanical constructions
 - Mechatronic integration
 - Prototype construction
 - Series production
 - Industrial image processing
 - Measurement services
- **Fields of application**
 - VIS optical systems
 - UV optical systems
 - Laser technology
 - Safety and sports optics
 - Automotive
 - Mechanical engineering
 - Other

- **R&D topics / specific strengths**

- Individual advisory service
- Project supervision from preparation of specification to series production
- Prototype construction

- **Specifics**

- Own optical laboratory
- MTF measurement equipment
- Interferometers
